

# **NB-3010-U**

## **Windows 8.1 installation guide**

## Device installation

**Plug the NB-3010-U Oyster reader** to a USB port and let the system to install the latest Windows driver automatically from Windows Update Service.

## Adding Fingerprint for Your Windows Account

- 1) Open **PC settings**

## 2) Click/tap on **Accounts**

### Personalize

## 3) On the left side, click/tap on **Sign-in options**

On the right side under **Fingerprint**, click/tap on **Add** (first finger) or **Add another** (after first time).

### Password

A strong password helps keep your account more secure

**Change**

### Picture password

Sign in to your PC using a favorite photo

**Add**

### Fingerprint

Sign in to your PC by scanning your finger

**Add**

### PIN

Sign in quickly with a four-digit number

**Add**

- 4) Enter your user account password to verify, and click/tap on **OK**.

*Note : if you already added a finger, then you could scan the registered finger on the fingerprint reader instead of entering your password.*

- 5) You will now need to **touch the fingerprint reader** several times as instructed. This way, the system will learn your fingerprint.

When done, click/tap on **Finish** to save the fingerprint.

When finished, you can close PC settings.

**You should be able to log-in to the system with the NB-3010-U fingerprint reader now.**

Also, when you lock your PC in the future, you can unlock it with simple touch of your finger.

## HP Client Security

If your machine has HP Client Security installed and your notebook comes with a built-in fingerprint scanner not manufactured by NEXT Biometrics, it is necessary to do the following otherwise Windows fingerprint log-in with the NB-3010-U might not work correctly.

- 1) Run the **HP Client Security** and go to **Advanced Settings** 

2) Click/tap on **Security Features**

3) Finally, disable **Windows Logon Security** option and click on **Apply** button
