1 DEVICE INSTALLATION

Plug the NB-3023-U reader to a USB port and let the system install the latest Windows driver automatically from Windows Update Service.

Note: Ensure that your PC is configured to install updates automatically through Windows Update. To do this, go to: *Control Panel\System and Security\Windows Update\Change settings* and select the 'Install updates automatically (recommended)' dropdown menu option available under 'Important updates' as shown below:

	_					
Control Panel\System and Security\Windows Update\Change settings	×					
) ← ← 🔹 → Control Panel → System and Security → Windows Update → Change settings 🗸	C Search Co P					
<u>F</u> ile <u>E</u> dit <u>V</u> iew <u>T</u> ools <u>H</u> elp						
Choose your Windows Update settings						
When your PC is online, Windows can automatically check for important updates and install them using	these					
settings. When new updates are available, you can also choose to install them when you shut down your	PC.					
Important updates						
Install updates automatically (recommended)						
V						
Updates will be automatically downloaded in the background when your PC is not on a metered Internet connection						
Opdates will be automatically installed during the maintenance window.						
Recommended updates ☐ Give me <u>r</u> ecommended updates the same way I receive important updates						
						Microsoft Update
✓ One me updates for other microsoft products when rupdate windows						
Note: Windows Update might update itself automatically first when checking for other updates. Read our privacy statement online.	r

2 ADDING FINGERPRINT FOR YOUR WINDOWS ACCOUNT

1) Open PC settings

Figure 2-1: Access PC Settings on WIN8.1 platform

2) Click/tap on Accounts

Figure 2-2: Accessing User Accounts from Settings

3) On the left side, click/tap on Sign-in options

On the rig	ght side under	Fingerprint,	click/tap	on Add	(first finger) of	or Add
another	(after first time	e).				

Figure 2-3: Adding Fingerprint as a Sign-in option

4) Enter your user account password to verify, and click/tap on OK.

Note: if you already added a finger, then you could scan the registered finger on the fingerprint reader instead of entering your password.

Figure 2-4: Enter account details to verify fingerprint

5) You will now need to touch the fingerprint reader several times as instructed. This way, the system will learn your fingerprint.

Figure 2-5: Multiple finger scans for enrolment

6) When done, click/tap on **Finish** to save the fingerprint. Close **PC Settings** when complete.

Figure 2-6: Complete fingerprint enrolment

3 Using Fingerprint On Your Windows 8.1 Device

Once the enrolment is complete (Step 2), you should be able to log-in to the system with the NB-3023-U fingerprint reader.

Your Windows 8.1 device can now also be unlocked with the simple touch of your enrolled finger.
